

Hell is not what it used to be. Hell is the willful turning of one's back on the Divine. The unchangeable sin is to be constantly negative toward good. One is good, not to keep from going to hell, but for the eternal profit of living straight—E.C.

A communication this issue about the memorial boulder should create comment and cause action. Seemingly the Methodist plot led to choosing site on the school grounds. The public—which is YOU—must pick another place, get busy and show sentiment, before it is set. Read the letter and act.

Requests papers are returned this week, and many anxious ones received. Of 18 to graduates 15 are reasonably certain from this result, and others will doubtless make the result points in June. There may have been years when an entire class hung in the balance. Computing this Regent's result with former standings will soon be completed and the respective positions of the Senior Class members reported.

The Sunday Herald had a story of three inmates of the Industrial Home in the city having escaped, and were found near Onondaga Hill. Two were found there, sheltered by a family until the Home sent for them. One, however, had tired of their round of tramping and he stopped at George Wellington's, telling that the others had gone on east. No one ever rapped at Wellington's door until a welcome, bedded and fed. And they took in the lone youth. But later they managed to phone the Institution. And Sunday morning Supt. Jackson came in a car driven by Warner Crego for the boy. His name was Robert Van Dyke. Whether or not Warner Crego has taken the position held so long by his brother Clyde we do not learn.

The attraction at Parsons Hall Saturday evening, April 21, is William S. Hart in White Oak. The Old-Time West—It is Hot! As Fennimore Cooper summed up, in his novels, the Pioneer Days of America, so does William S. Hart, on the screen, live the life of the Great Wild West. Many call "White Oak" with its love, its thrills, its drama, the finest picture he ever made. See it; Thrills; Judge for yourself. Comedy, "265 Days." Pathe News.

Boys are liable to arrest and fine for destroying property, public or private. One is broke some time past in front of Mr. Carroll's, and boys broke it. Are you the parents of such boys?

With this issue The Observer begins its 45th year. Edmund Reed started the paper April 17, 1878. On that date, 1880, the paper was one year old. On that date, 1924, the paper will be 45 years old. Is this correct? Such calculation is confusing. And we would not like to have our volume numbers running wrong. Mr. Reed was quite a boy editor, in his teens or a few twenties.

SITE FOR MEMORIAL BOULDER

To the Editor:

As the time set for placing the Soldiers' Monument in Marcellus village approaches, I would like to ask a question or two and request an answer through The Home Paper.

Why was such an out-of-the-way place chosen? There must be a reason; is it a good and sufficient one? Think of the days when these boys were leaving us, to face whatever might be in store for them. Think of the hours of devoted service, in knitting, in sewing, in the preparation of all kinds of comforts for "our boys," the countless loving stitches that went to the making of our Community Service Flag. Do not these things attract the universal interest in them?

Let the Monument be placed where all can feel a share in it. Let it be a constant inspiration to only to the students in school, but to the whole community.

Is the Monument placed in the green in front of the M. E. church—an ideal location for all time to come?

FARMERS MUST COOPERATE

Editor's Note—To hear Sapirio talk is to see the plain duty of every producer to join the Co-Op. There is nothing left for him but this. The billboards say: "Eventually, Why not now?" The Home Paper has a place chosen? There must be a reason; is it a good and sufficient one? Think of the days when these boys were leaving us, to face whatever might be in store for them.
